Hi everyone,

Have we heard anything from Elliott or Lorie since Claudia sent the email yesterday? It would be helpful to have some estimate of when they may be able to complete their review.

Thanks much,

Hi, Carissa,

As far as I know, Elliott Zenick and Lorie Schmidt in OGC are still in the process of reviewing the draft NPR before making a concurrence decision. Thank you for checking in and your efforts to keep this moving. We are doing everything we can on this end.

Thanks,

Claudia

## **Ex. 5 - Attorney Client**

As I indicated yesterday, I don't personally have the authority to concur in the package on behalf of OGC, but am copying Elliott Zenick and Lorie Schmidt on this email and recommending to them that OGC do so. Hopefully, this will be sufficient to allow the package to move forward to Janet McCabe for her review.

Great job.

Thanks, Claudia. I can open it in Word Online, but when I try to open it in Word to edit it, I get a message saying that it is unable to connect at this time. I had this problem with another SharePoint site (the oil and gas FIP for new sources) the other day when I was working from home. I then got it to work once I got to the office, but it eventually messed up again and I ended up not only losing ½ day's work, but also having to spend another ½ day straightening it out. I will appreciate it you will download the document from

SharePoint and send it to me as an attachment to an email so that I can open it in Word. I won't be able to automatically update the document on SharePoint, but at least I shouldn't lose anything and I don't expect to have many, if any, comments at this point. Thanks.

All,

Kim was unfortunately editing an older version than the one we recently sent to OAQPS. I was going to incorporate her comments into the version that was sent to OAQPS, which should be the version that is currently on the Sharepoint. I have not had a chance to do that yet.

Thanks,

Claudia

Looking further, this appears to be the version SENT TO QAQPS, but does not incorporate edits agreed upon among Claudia, Gerri Garwood, and me on the phone last week concerning the footnote 80 language and other edits/corrections I caught and marked up (e.g., pneumatic controllers constructed after 10/15/13 instead of the 8/23/11 date R8 had originally in the table around page 55 or 57). These were all in the version that R8 and OAQPS discussed last week, and that was supposed to be the one that went to DC.

**Importance:** High

I agree that this version is NOT the latest version that OAQPS and R8 agreed upon last week. I just checked a couple of things, primarily the footnote about combustor performance, and it is NOT the agreed upon language.

Kim, I ran out of time to make any change on the sentences in the vicinity of footnote 6, but I think we can make further small edits like that still either as OGC reviews it or by reaching out to OAQPS directly. I'll try to give that a closer look tomorrow. Thanks all for the help so far -
